

# THE REAL *heart* of AMERICA

## **The Real Heart of America...**

is here — the place we call home.  
The one politicians, Wall Street  
and mega-banks too often overlook.  
Until they need us to bail them out.  
Again. Just like we always have.

Because here in our Real Heart of America  
we're about conscience...discipline...strength  
and commitment. And a bank we can always  
count on through good times and bad.
